

visibility. Similarly Visibility Review / Risk Assessment to take place, to check if any "highway objects" require lowering, relocating or removal within this length of road.

Also there will be a review on risk basis, of any existing VRS / Safety Fencing ("crash barriers") regarding need for new, or upgrades within this length of road. Any new or upgraded VRS would include the "Bikeguard" system, which is a 2nd (lower) crash barrier beam to give protection for motorcyclists and vulnerable road users.

Visibility Review / Risk Assessment on Both Sides of Road within this Area. This to determine in detail if any Bush / Vegetation trimming back or thinning is required to improve visibility. Similarly Visibility Review / Risk Assessment to take place, to check if any "highway objects" require lowering, relocating or removal within this length of road.
