

## CORPORATE ENVIRONMENT POLICY

Derbyshire County Council is committed to putting the principles of sustainable development into action in everything the authority does, so that development meets the needs of today without compromising the ability of future generations to meet their own needs. Managing our environment sustainably will be a part of making Derbyshire a place:

- With resilient and thriving communities
- With happy, healthy people and families
- With a strong, diverse and adaptable economy
- Which is great to live in, visit and work.

We recognise the impact we have on the environment and society through the delivery of our operations and are committed to protecting the environment by minimising any adverse environmental impact, while creating opportunities for enhancing positive environmental effects to improve the quality of life for people.

We will encourage and enable all our employees to do what they can to translate these commitments into practice. We will also work with our contractors and suppliers to improve our environmental performance. This policy will, therefore, be communicated to all employees and contractors working for or on behalf of the County Council.

We will monitor our environmental performance by setting organisational objectives and targets and report on our progress.

In developing the Environment Policy, the Council is publicly setting out its commitment to continual environmental improvement. The Environment Strategy and Action Plan set out the work the Council will undertake to implement this policy.
