

# Local List of Information Requirements

## National Requirements

This section identifies the mandatory information that is required in support of planning applications made to Derbyshire County Council. All information items are required countywide unless otherwise stated.

Ref No.	Information Item	Driver	Types of Application that Require this Information	What Information is Required	Further Guidance
NR1	Completed Application Form	The Town and Country Planning (Development Management Procedure) (England) Order 2010 as amended 2015 (DMPO)	All planning applications (with certain exceptions) submitted to Derbyshire County Council.	<p>For most planning applications (excluding mineral related development) a standard national application form should be completed (e.g. 1APP form). Copies of the relevant application forms can be accessed via the National Planning Portal. Wherever possible planning applications should be submitted electronically via the National Planning Portal.</p> <p>All applications for mineral-related development (except for on-shore oil and gas development) will need to be supported by a completed Derbyshire County Council mineral application form available from the county council's website.</p> <p>For on-shore oil and gas development the standard national application form, available on the planning portal should be completed.</p>	<p><a href="#">National Planning Portal</a></p> <p><a href="#">Derbyshire County Council Website</a></p> <p><a href="#">National Planning Practice Guidance Website</a></p>

				<p>For applications made under section 96A for non-material amendment to a planning permission, a form is available from the planning portal.</p> <p>Applications for the approval of details reserved by condition(s) attached to a permission do not need to be made using a 1APP form (although a 1APP form is available). In such cases applications can be made by letter but this must clearly identify the permission reference number and condition(s) to which the submission relates.</p>	
NR2	Location Plan	DMPO	<p>All planning applications <del>(including applications for Relevant Demolition in a Conservation Area and Listed Building consent)</del> submitted to Derbyshire County Council except for the following types:</p> <ul style="list-style-type: none"> <li>▪ Applications for removal or variation of condition(s) following grant of planning permission (Section 73);</li> <li>▪ Applications for approval of</li> </ul>	<p>All planning applications must include copies of a location plan, preferably based on an up-to-date Ordnance Survey map. This should be at a scale of 1:1250 or 1:2500, or 1:5000, or 1:10,000 for large sites, and clearly show the direction of north. The DMPO <del>2010</del>2015 requires three copies plus the original (unless submitted electronically).</p> <p>The plans should identify sufficient roads and/or buildings on land</p>	<p><a href="#">National Planning Practice Guidance Website</a></p>

			<p>details reserved by condition(s);</p> <ul style="list-style-type: none"> <li>Applications for non-material amendments following the grant of planning permission (Section 96A).</li> </ul>	<p>adjoining the site to ensure the exact location of the application is clear. The inclusion of place names may be helpful.</p> <p>The application site should be edged clearly with a red line on the location plan. It should include all land necessary to carry out the proposed development (e.g. land required for access to the site from a public highway, visibility splays, landscaping, car parking and open areas around buildings). A blue line should be drawn around any other land owned by the applicant, close to or adjoining the application site.</p>	
NR3	Ownership Certificates and Notices; and Agricultural Land Declaration	DMPO	<p>All planning applications submitted to Derbyshire County Council.</p> <p>Where applicable, the agricultural land declaration is included as part of the relevant ownership certificates.</p> <p>An Agricultural Land Declaration is <b>not</b> required for the following types of application:</p>	<p>To be valid, all planning applications must include a completed and signed ownership certificate and Agricultural Land Declaration where appropriate. Where the applicant is not the sole owner of the land (or part thereof) to which the application relates then a notice must also be served on those persons with an interest in the land.</p> <p>The ownership certificates and declaration (where applicable) are</p>	<p><a href="#">National Planning Practice Guidance Website</a></p> <p><a href="#">DMPO</a></p>

			<p>to be created by the development is 1,000 square metres or more; or</p> <p>(b) development carried out on a site having an area of 1 hectare or more; or</p> <ul style="list-style-type: none"> <li>▪ where any part of the development is in a designated area, developing consisting of: <ul style="list-style-type: none"> <li>(a) the provision of one or more dwellinghouses; or (Relevant to County matters);</li> <li>(b) a building or buildings where the floor space created by the development is 100 square metres or more, and any part of the development is within a designated area.</li> </ul> </li> </ul> <p><del>▪ for listed building consent</del></p> <p>For the purpose of DAS, a 'designated area' means a World Heritage Site or</p>	<p>A development's context refers to the particular characteristics of the application site and its wider setting. These will be specific to the circumstances of an individual application and a Design and Access Statement should be tailored accordingly.</p> <p>Design and Access Statements must also explain the applicant's approach to access and how relevant Local Plan policies have been taken into account. They must detail any consultation undertaken in relation to access issues, and how the outcome of this consultation has informed the proposed development. Applicants must also explain how any specific issues which might affect access to the proposed development have been addressed.</p> <p><del>Design and Access Statements accompanying applications for listed building consent must include an explanation of the design principles and concepts that have been applied</del></p>	

Ref No.	Information Item	Driver	Types of Application that Require this Information	What Information is Required	Further Guidance
			<p>conservation area.</p> <p>A DAS is not required to be submitted if the proposed development is:</p> <ul style="list-style-type: none"> <li>▪ for permission to develop land without compliance with conditions previously attached, made pursuant to section 73 of the Act;</li> <li>▪ engineering or mining operations;</li> <li>▪ of a kind referred to in article 4820(1)(b) or (c) of the DMPO— these refer to time limits;</li> <li>▪ for a material change in use of the land or buildings;</li> <li>▪ for development which is waste development.</li> </ul>	<p><del>to the proposed works, and how they have taken account of:</del></p> <p><del>(a) the special architectural or historic importance of the building;</del></p> <p><del>(b) the particular physical features of the building that justify its designation as a listed building; and</del></p> <p><del>(c) the building's setting.</del></p> <p><del>Unless the proposed works only affect the interior of the building, Design and Access Statements accompanying applications for listed building consent must also explain how issues relating to access to the building have been dealt with. They must explain the applicant's approach to access, including what alternative means of access have been considered, and how relevant Local Plan policies have been taken into account. Statements must also explain how the applicant's approach to access takes account of matters (a)-(c) above.</del></p>	

Ref No.	Information Item	Driver	Types of Application that Require this Information	What Information is Required	Further Guidance
				<del>Design and Access Statements accompanying applications for listed building consent must provide information on any consultation undertaken, and how the outcome of this consultation has informed the proposed works. Statements must also explain how any specific issues which might affect access to the building have been addressed.</del>	

## Local Requirements

This section identifies the local information requirements that may be required in support of planning applications made to Derbyshire County Council. The list provides comprehensive coverage of all matters that may need to be addressed in County Matter applications but not all the issues will need to be addressed in support of every application. Further guidance is provided in the Validation Checklists prepared for the main types of planning applications and which are available below but applicants are advised to discuss information requirements with the planning authority at the pre-application stage. All information items are required countywide unless otherwise stated.

Ref No.	Information Item	Driver	Types of Application that Require this Information	What Information is Required	Further Guidance
LR1	Drawings/ Plans/ Sections/ Photographs	National Planning Practice Guidance (NPPG) PPG		All drawings and plans should be at an identified standard metric scale. The provision of the individual requirements listed below should always include information to	<a href="#">National Planning Practice Guidance Website</a>

Ref No.	Information Item	Driver	Types of Application that Require this Information	What Information is Required	Further Guidance
		DMPO		demonstrate the existing situation at a site (i.e. 'as existing drawings').	
LR1.1	Site/Block Plans	NPPG DMPO	Most development and change of use proposals. Exceptions where block plans are not necessary should be agreed at pre-application discussions.	<p>A site plan should be drawn at an identified metric scale (e.g. 1:200 or 1:500, or such scale as appropriate) and should accurately show:</p> <p>(a) the direction of North;  (b) the proposed development in relation to the site boundaries, with written dimensions including those to the boundaries;</p> <p>The following items are required to be shown where they influence or could be affected by the proposed development:</p> <p>(c) all buildings, roads and footpaths on land adjoining the site including access arrangements;  (d) all public rights of way crossing or adjoining the site (e.g. footpath, bridleway, restricted byway or byway open to all traffic);  (e) the position of all trees and hedgerows on the site and those on adjacent land that could influence or be affected by the development (also</p>	<a href="#">National Planning Practice Guidance Website</a>

Ref No.	Information Item	Driver	Types of Application that Require this Information	What Information is Required	Further Guidance
				<p>see Tree or Arboricultural Statement (LR6) of the local requirements for more advice/details);</p> <p>(f) the extent and type of any hard surfacing;</p> <p>(g) boundary treatment including walls or fencing where this is proposed;</p> <p>(h) identify connection points for foul and surface waters and any culverted watercourses present within the development site (where known);</p> <p>(i) the position and extent of any playing fields.</p>	
LR1.2	Elevation Plans	NPPG DMPO	Proposals involving new buildings, structures, plant and machinery or would involve a change to the appearance of an existing building etc.	<ul style="list-style-type: none"> <li>▪ Details of the dimensions of the building in metric measurements;</li> <li>▪ Details of all the external materials and finishes with colour (expressed in BS or RAL code);</li> <li>▪ Position and materials of doors and windows;</li> <li>▪ Details of any adjacent buildings and structures.</li> </ul>	<a href="#">National Planning Practice Guidance Website</a>
LR1.3	Floor Plans	NPPG DMPO	All proposals for new buildings and/or the extension of existing buildings that would create additional floorspace.	<ul style="list-style-type: none"> <li>▪ Details of new walls to be created or existing walls to be lost;</li> <li>▪ Position of window/door openings;</li> <li>▪ Uses of the floorspace, where</li> </ul>	<a href="#">National Planning Practice Guidance Website</a>

Ref No.	Information Item	Driver	Types of Application that Require this Information	What Information is Required	Further Guidance
				appropriate.	
LR1.4	Cross-sections and ground levels	NPPG DMPO	All proposals where changes to the existing site/ground levels are proposed or where no changes to ground levels but cross sections would help demonstrate the perspective of the development relative to existing features.	<ul style="list-style-type: none"> <li>▪ Details of changes in site and ground levels and how the development relates to them;</li> <li>▪ Include the position of adjoining land and development to demonstrate how they relate to the proposal.</li> </ul>	<a href="#">National Planning Practice Guidance Website</a>
LR1.5	Photographs and photo-montages	NPPG DMPO	Applications where the development would result in a significant change in the appearance of a building or landscape. This includes development affecting Listed Buildings and conservation areas, mineral developments, major remediation schemes and waste management developments with substantial new buildings, structures or high storage facilities.	Photographs to demonstrate the appearance of a building or area in its current state and photomontages to demonstrate the change. Computer generated images may also be helpful.	<a href="#">National Planning Practice Guidance Website</a>
LR2	Planning Statement/ Supporting Statement	DMPO	Most applications except those accompanied by an Environmental Statement (under the <a href="#">Town and Country Planning (Environmental Impact Assessment) Regulations 2017</a> (the EIA	Information to describe the proposed development and why it is considered necessary or justified. This should not duplicate the information provided on the application form and elsewhere but expand on or clarify that information.	<a href="#">National Planning Practice Guidance Website</a>  <a href="#">Derby and Derbyshire Waste Local Plan</a>

PUBLIC

Ref No.	Information Item	Driver	Types of Application that Require this Information	What Information is Required	Further Guidance
			<p>Regulations 2014).</p> <p><b>Note</b> - the questions on the 1APP forms and the space provided for responses do not always enable applicants to fully describe and explain their proposals. The provision of a written supporting statement may be helpful to applicants.</p>	<p>For example, in proposals by the <del>e</del>County <del>e</del>Council (school security fencing, temporary classrooms and sports facilities) it could explain why the proposal was being made and clarify the uses to be made of it.</p> <p><u>The statement should consider national and local planning policies that are of direct relevance to the proposal and provide a reasoned assessment of the conformity or otherwise of the proposal with those policies.</u></p> <ul style="list-style-type: none"> <li><del>The statement should include a sustainability appraisal outlining the elements of the proposal that address sustainable development issues. This could include the choice of building design and facilities aimed at reducing energy needs and water consumption and the overall carbon footprint.</del></li> </ul>	<p><del>(DDWLP) Chapters 3 to 7</del></p> <p><del>Derby and Derbyshire Minerals Local Plan (DDMLP) Chapter 4</del></p>

Ref No.	Information Item	Driver	Types of Application that Require this Information	What Information is Required	Further Guidance
				For County Council developments, where appropriate, the statement should include outline details of any wider development or redevelopment plans at the site (context for the current proposal). This could be presented in the form of a Master Plan for the site.	
LR3	Statement of Community Involvement/ Pre-application engagement	NPPF paragraphs 66 and 188 - 195  Localism Act 2011  NPPG	It is good practice to engage with the community at an early stage of any proposed development but especially most 'major' developments as defined in the <a href="#">Development Management Procedure Order DMPO</a> .  Exceptions would include small scale proposals where the potential impact would be limited in scale and area. For example, small scale changes on an existing waste or minerals development.	Explain the steps taken to inform the local community of the proposed development and how it has been amended (or not) to take account of the issues raised in that process.	Derbyshire Minerals and Waste Development Framework: Statement of Community Involvement 2006  <a href="#">National Planning Practice Guidance Website</a>
LR4	Flood Risk Assessment	NPPF paragraphs <a href="#">93100-1084 Derby and</a>	A Flood Risk Assessment will be required for development proposals in areas at risk of flooding. For fluvial (river) and	The assessment should demonstrate how flood risk will be managed now and over the development's lifetime, taking climate change into account,	<a href="#">National Planning Practice Guidance Website</a>

Ref No.	Information Item	Driver	Types of Application that Require this Information	What Information is Required	Further Guidance
		<p><a href="#">Derbyshire Waste Local Plan (DDWLP)</a> Policies W5, W6 and W9.</p> <p><a href="#">Derby and Derbyshire Minerals Local Plan (DDMLP)</a> Policies MP1 and MP4.</p>	<p>sea flooding, this is principally land within Flood Zones 2 and 3. It can also include an area within Flood Zone 1 which the Environment Agency has notified the local planning authority as having critical drainage problems.</p> <p>Site-Specific Flood Risk Assessment is required for the following types of development/application:</p> <ul style="list-style-type: none"> <li>▪ All development proposals of 1 hectare or greater in Flood Zone 1 (as identified by the Environment Agency);</li> <li>▪ All development proposals for new development in Flood Zones 2 and 3 (including minor development and change of use);</li> <li>▪ All development proposals in an area within Flood Zone 1 which has critical drainage problems (as</li> </ul>	<p>and with regard to the vulnerability of its users (see Table 2 – Flood Risk Vulnerability of the NPPG).</p> <p>Flood Risk Assessments should demonstrate compliance with the requirements set out in the Site-Specific Flood Risk Assessment: CHECKLIST of the NPPG. Where appropriate, this will include consideration of the Sequential and Exception Tests.</p> <p>Sequential and Exception Tests are not required for minor development. For this purpose, minor is defined as non- residential extensions with a footprint of less than 250sq.m. and development that does not increase the size of buildings. Such proposals still require a FRA, where otherwise necessary.</p>	<p><a href="#">Environment Agency guidance and flood maps website</a></p> <p><a href="#">DEFRA: Sustainable drainage systems non-statutory technical standards</a></p>

Ref No.	Information Item	Driver	Types of Application that Require this Information	What Information is Required	Further Guidance
			notified to the local planning authority by the Environment Agency); and where proposed development or a change of use to a more vulnerable class may be subject to other sources of flooding.		
LR5	Foul and Surface Water Drainage Details	1APP Form NPPF paragraphs 109 and 120 DDWLP Policy W6	All applications for new development (e.g. new buildings, extensions, hard surfaced areas such as car parks and playgrounds), where there are concerns about the capacity of wastewater infrastructure, applicants will be asked to provide information about how the proposed development will be drained and wastewater dealt with.	Sufficient information to demonstrate how surface and foul waters arising from the development will be managed. If an application proposes to connect a development to the existing drainage system then details of the existing system should be provided. Where new infrastructure or servicing is required the details should be provided with the application. The details shall include the type (including <a href="#">sustainable drainage systems [SuDS]</a> ) and nature of the system to be used and details of its design, specification and location.  Where the development involves the disposal of trade waste or of foul sewage effluent other than to the	<a href="#">National Planning Practice Guidance Website</a>  Relevant local sewerage company  <a href="#">DEFRA: Sustainable drainage systems non-statutory technical standards</a>

Ref No.	Information Item	Driver	Types of Application that Require this Information	What Information is Required	Further Guidance
				<p>public sewer, a fuller foul drainage assessment is required including details of the method of storage, treatment and disposal. Applications for developments relying on anything other than connection to a public sewage treatment plant should be supported by sufficient information to understand the potential implications for the water environment.</p> <p>The level of information required should be sufficient to enable the application to be determined. It may be possible to defer full details to be submitted under the terms of a condition.</p>	
LR6	Tree/ Arboricultural Statement	1APP Form  NPPF paragraphs 109 and 118	<p>All applications which involve the felling and pruning of existing trees and hedges on a site or involve works (excavations, storage of materials and movement of heavy plant and vehicles) which could affect tree or hedgerow root systems.</p> <p><b>Note</b> – the 1APP form requires the provision of information</p>	<p>A tree survey detailing the location of existing trees on a site, including species, size, condition and spread.</p> <p>The statement should describe:</p> <p>1. How the proposed development would affect existing trees on or adjacent to the site and justify any trees to be felled due to their condition and/or as a result of the development; and</p>	BS5837:2012 Trees in Relation to Design, Demolition and Construction - Recommendations

## Validation Checklist Form A: Applications for Outline/Full Planning Permission

This form should be completed and submitted in support of all planning applications made to Derbyshire County Council which seek outline or full planning permission.

Provision of all the National List Requirements is compulsory for all applications. It may not be necessary to provide information for all the Local List Requirements in support of every planning application. Guidance on the circumstances when information is required and what information should be provided is available in the Local List of Information Requirements which can be viewed on the County Council website.

Failure to provide all the National List Requirements and the relevant Local List Requirements will result in the application being invalid and the application may be returned to you.

LOCATION OF PROPOSED DEVELOPMENT	
----------------------------------	--

NATIONAL LIST REQUIREMENTS: All the following national requirements are required in support of the application

Item No.	Item	Tick	Where the information can be found in the application documents
NR1	Completed Application Form		
NR2	Location Plan		
NR3	Ownership Certificates & Notices		
NR4	Application Fee		
NR5	Design and Access Statement (where applicable)		

LOCAL LIST REQUIREMENTS: The following Local List requirements should be provided where the application meets the location and other circumstances identified in the Local List

Item No.	Item – The information requirements for this type of application may include:	Tick	Where the information can be found in the application documents
LR1.1	Site/Block Plans

## Derbyshire County Council

### Validation Checklist Form B: Applications for the removal or variation of conditions following the grant of planning permission (Section 73 and 73 A of the Town and Country Planning Act 1990)

This form should be completed and submitted in support of all planning applications made to Derbyshire County Council for the removal or variation of conditions attached to an existing planning permission.

Sufficient information should be provided to enable the County Council to identify the previous planning permission and the condition or conditions which the applicant is seeking to remove or vary. The application should state the proposed revised condition and provide clear reasons why it is considered to be more appropriate to the development. The full version of the Local List of Information Requirements can be viewed on the County Council website. It contains guidance on the circumstances where each Local List Requirement is relevant for an application and on the information that is required.

Failure to provide all the information listed; both the National List Requirements and the relevant Local List Requirements will result in the application being invalid and the application may be returned to you.

LR29	Validation Checklist		

## Validation

After having received a planning application if the authority considers that insufficient information has been provided to make a decision on the application the applicant will be informed as soon as possible that this is the case, setting out what additional information needs to be provided.

In the event that the applicant disagrees with the authorities request to provide additional information, it is expected that both the applicant and the authority make every effort to resolve the disagreement about the information needed to support a planning application. Informal negotiation is clearly in the interests of both parties.

Pre-application discussions can be a useful way for an applicant and the authority to agree what information is required before an application is submitted. This can help avoid disputes over the information necessary to validate an application and reduce associated delays.

There is a procedure in the Development Management Procedure Order to resolve such disputes. An applicant must first send the authority a notice under article 12 of the Town and Country Planning (Development Management Procedure) (England) Order 2015 (an 'article 12 notice'). This

**PUBLIC**

must set out the reasons why the applicant considers that the information requested by the authority, in refusing to validate the planning application, does not meet the statutory tests.

When the authority receives an article 12 notice, the merits of the applicant's case will be considered as to why the information requested does not meet the statutory tests. The authority will then either issue a 'validation notice', stating that it no longer requires the information specified in the article 12 notice, or a 'non-validation notice' stating that it still requires the applicant to provide the information requested.
