

Caring for Carers and their Families

Established in 1988, Derbyshire Carers Association support carers who look after a friend or family member who, due to illness, disability, mental health problems or an addiction cannot cope without their help and support.

We have a wealth of experience and understanding of the demands that a caring role can bring.

Derbyshire Carers Association

There are over 120,000 people providing unpaid care for loved ones in Derbyshire – these are ‘hidden Carers’, and the backbone of community care.

Many people who are supporting someone do not associate themselves with the term ‘Carer’ they simply see themselves as relatives or friends. Caring for others can be complex and demanding, physically taxing and mentally draining – Carers often become so focused on the person they care for that they forget to look after themselves. To keep going, it is essential that carers give a thought to their own health and wellbeing and that’s when Derbyshire Carers Association can help. Admitting that you need help is not a sign of weakness or failure.

Derbyshire Carers Association – working to promote the recognition of caring as a shared responsibility of family, community, business and government.
